

Public Service Commission of South Carolina

Tariff Summary Sheet as of March 3, 2010

Williston Telephone Company, Inc. d/b/a TDS Telecom

Tariff Service: Local

This document is the complete version of the tariff on file and contains the following approved revisions. Detailed information is available for each revision on the Commission's E Tariff website (<http://etariff.psc.sc.gov>).

Revision	Date Filed	Effective Date	# of Pages
E2010-52	2/17/10	3/3/10	4
Summary: The purpose of this filing is to remove the Digital Key Lines and Channels Exception from the Virtual Telephone Network offering. This Digital VTN offering is now available and concurs in the McClellanville Tariff.			
E2009-270	9/16/09	10/8/09	8
Summary: The purpose of this filing is to remove the text for the Integrated Services Digital Network (ISDN) - Primary Rate (PRI) service from the Williston Telephone Company tariff. This filing is in conjunction with the McClellanville filing to add ISDN-PRI. Williston will concur in McClellanville's service offering with no exceptions.			
E2009-217	7/20/09	8/3/09	2
Summary: The purpose of this filing is to grandfather the existing rate of \$44.95 to existing customers effective August 3, 2009. Customers subscribing to this service after August 3, 2009 will be billed at the new rate of \$54.95. The Safety Line Service can be referenced in the McClellanville Telephone Company's General Exchange Tariff of which Williston Telephone concurs.			
E2008-431	12/22/08	1/7/09	5
<u>Summary:</u> The purpose of this filing is first to file exceptions to the STAR Packages filed under McClellanville on 12/22/08. The exceptions include rates for the Williston exchange. With this filing we will also grandfather the Total Talk & Smart Pack Lite Bundles to existing Residential customers effective January 7, 2009.			
E2008-335	10/1/08	10/15/08	3
Summary: The purpose of this filing is to add a new bundle to the tariff. Safety Line Service is an optional bundle for residential customers who have their main telephone service with a wireless provider, but require a landline for emergency back-up and high speed data. The bundle includes a Residential One-Party and 1.5 Mbps of high speed data.			
E2008-265	8/28/08	9/11/08	4
Summary: The purpose of this filing is to add two non-recurring charge waivers and a 50% discount on Smart Pack.

D. Smart Pack Lite⁴

(C)

1. General

Smart Pack Lite is an optional service package. The package permits a customer to receive services and features for a flat monthly rate, for each Smart Pack Lite subscriber line provided. Smart Pack Lite includes the following services:

- Residential One-Party Line
- Caller ID Deluxe
- One CCS or ACS feature of the customer's choice
- Inside Wire Maintenance (deregulated service)

2. Conditions and Limitations

- a. Rules, regulations and limitations, as specified elsewhere in the Company's tariffs for each individual service will apply as part of this bundle.
- b. Unless terminated by the Smart Pack Lite customer or the Company, a customer will remain enrolled in the Plan, as amended from time to time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
- c. Smart Pack Lite customers are not eligible for discounts or promotional offerings (outside of this bundle) associated with the Custom Calling and Advanced Calling Services included in the Plan, unless specifically provided for in a promotional offering.
- d. Customers enrolled in the Plan, who fail to pay the entire rate per month, will be subject to having all existing Smart Pack Lite services converted to the applicable tariff rates. Service Charges will not apply for converting services back to the tariff rates. Such customers will not be permitted to re-enroll in this Plan until such time as all associated unpaid balances are satisfactorily paid in full.

c. Residence Rate^{1,2,3}

	<u>Rate Per Month</u>
Local Bundle, per line	\$18.05

¹ In order to receive this rate, customers must also subscribe to the DSL 1.5M or 4M speed service.

² Customers must sign a one-year commitment to be eligible for these rates. If the customer terminates the local bundle prior to one year, a one-time non-recurring fee of \$99.00 applies.
³ New customers will receive a waiver of the install or service connection charges.

⁴ This service is grandfathered to existing Residential customers effective January 7, 2009. The service will not be available to new customers after this date.

B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)

1. General

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture, which provides for the simultaneous access, transmission and switching of voice, data and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems, which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID-Basic is included with this service.

BRI is an optional service arrangement which can be used in conjunction with a customer's Individual Line Business or Residence service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice Service, Circuit Switched Data Service and Packet Switched Data Service.

A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).

"B" Channel: The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel be configured to offer voice service, data service or voice/data service. One Primary Directory Number with one Primary Directory Listing for the first "B" Channel ISDN Service line is provided. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

"D" Channel: The "D" Channel is a 16 kbps digital signaling channel that carries signaling and control for the "B" channel and has maximum packet transmission throughput of 9.6 kbps.

All ISDN Service lines consist of central office facilities, including the outside plant facilities, extended from the Company's switching equipment to the customer's demarcation point.

GENERAL EXCHANGE TARIFF

WILLISTON TELEPHONE COMPANY, INC.
d/b/a TDS TELECOM
South Carolina

Section 7
Original Sheet 5

SPECIAL DIAL TONE ARRANGEMENTS

B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)
(continued)

1. General (continued)

ISDN Service is provided at the option of the Company, and is furnished subject to central office switching capacity and the availability of outside plant facilities. The availability, functionality and capabilities of the ISDN Service features may vary, or may not be available dependent upon type of serving central office switch, related software controlling that switch and associated outside plant.

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ISDN Service render any facilities provided by the customer obsolete or require modification or alteration of such customer's equipment or systems, or otherwise affect its use or performance.

2. Circuit Switching

CIRCUIT SWITCHING - Circuit Switching is a switching technique in which an entire circuit, or in a digital switch equipped for ISDN, a specific selection of time slots is dedicated to a given call. Circuit Switched Service provides the ability to originate and receive circuit switched voice, data and voice/data calls over a 64 kbps "B" channel. Usage charges for Circuit Switched Voice and Data calls are applicable on each "B" channel and are outlined in the ISDN-BRI Rate Schedule. The customer may choose among the following Circuit Switched features based upon application needs.

a. Electronic Key Telephone Service (EKTS) Features: Electronic Key Features provide the customer with the ability to access the following features where available:

- (1) Multiple Call Appearances of a Directory Number - An arrangement that allows the user to have appearances of the directory number assigned to the customer-provided set, providing the capability of multiple incoming or outgoing calls associated with that directory number. Multiple incoming calls to this directory number or secondary telephone number (if purchase) can be terminated to the telephone if one or more idle calls appearances are available to accept the calls. In certain central offices, this arrangement may impact the use of the Shared Call Appearance feature.

SPECIAL DIAL TONE ARRANGEMENTS

- B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)
(continued)
2. Circuit Switching (continued)
- a. Electronic Key Telephone Service (EKTS) Features (continued)
- (2) Shared Call Appearances of a Directory Number - An arrangement that allows a directory number(s) from one customer-provided set to appear as a call appearance(s) on the customer-provided sets of other users. Bridging, an arrangement that allows the user to connect onto a currently active call, is included.
 - (3) Analog Line Pickups - An arrangement that allows an ISDN set to provide coverage for an analog number(s). This arrangement is limited to analog numbers that are terminated in the same central office switch. This feature may limit the use of other features and/or functionality on the analog line. Bridging, an arrangement that allows the analog user to connect onto a currently active call, is included.
 - (4) Privacy Release (Automatic Exclusion) - An arrangement that allows a customer to specify that no other user can bridge onto an existing call(s). On a call by call basis, this feature can be disabled to allow bridging to occur.
 - (5) Manual Exclusion (Privacy) - An arrangement (opposite of Privacy Release) that allows the customer to restrict other stations from picking up an existing call on hold or bridging onto an existing call that is active at that station.
 - (6) Intercom Calling - An arrangement that allows for ISDN station-to-station calls.
 - (7) Bridging - An arrangement that allows the user to join an active call by pressing the active call appearance button. Bridging is inhibited if Manual Exclusion is activated on the terminal engaged in the active call.

Section 7
Original Sheet 7

SPECIAL DIAL TONE ARRANGEMENTS

B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)
(continued)

2. Circuit Switching (continued)

- b. Secondary Telephone Numbers - An arrangement that allows a customer-provided set to have access to an additional telephone number(s), or Secondary Telephone Number(s), may originate or receive calls independent of the customer-provided set's Primary Directory Telephone Number.
- c. Clear Channel Capability - A characteristic of the transmission paths on the "B" channel that allows the full bandwidth on the "B" channel, 64 kbps, to be available to the customer. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 kbps.
- d. Custom Calling Services - Available at rates and charges specified elsewhere in the Custom Calling Services section of this tariff. Custom Calling Service features found specifically in this ISDN tariff will be charged for at rates found on the ISDN Rate Schedule.
 - (1) Call Hold, Drop and Transfer -
 - (2) Call Hold - Allows the user to place a call on hold by pressing a programmed button on a customer-provided set.
 - (3) Call Drop - This central office based feature allows the user to disconnect the last party added to a conference call.
 - (4) Call Transfer - This feature allows the user to transfer a call to another directory number. This feature is for use with Circuit Switched voice only.

Section 7
Original Sheet 8

SPECIAL DIAL TONE ARRANGEMENTS

B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)
(continued)

2. Circuit Switching (continued)

(e) Advanced Calling Services - Available at rates and charges specified elsewhere in the Advanced Calling Services section of this tariff. Advanced Calling Service features found specifically in this ISDN tariff will be charged for at rates found on the ISDN Rate Schedule.

(1) Caller Identification-Deluxe - An Advanced Calling Service feature that provides the caller's name and number to be displayed on properly equipped customer-provided equipment (where available).

(2) Caller Identification-Basic - An Advanced Calling Service feature that provides the caller's telephone number to be displayed on properly equipped customer-provided equipment (where available).

3. ALTERNATE CIRCUIT SWITCHED VOICE SERVICE/CIRCUIT SWITCHED DATA SERVICE

Alternate Circuit Switched Voice Service/Circuit Switched Data Service provides the ability to originate and receive either Circuit Switched Voice calls or Circuit Switched Data calls over a single "B" channel but not simultaneously. This arrangement is available where technology permits. The features applicable to Circuit Switching Service are also applicable to this service.

4. Intraswitch Packet Switched Data "D" Channel Service

Packet Switching is a technique in which packets of data are individually addressed and combined on a transmission path with other addressed packets. Packet Switched Data "D" Channel Service provides the ability to originate and receive X.25 packet data calls on an intraswitch basis. This arrangement provides a maximum throughput of 9.6 kbps. Each "D" channel packet terminal will provide logical channel up to the technical capabilities of the serving central office. Multiple packet calls can be active simultaneously by a user on a single "D" channel. Up to eight data terminals can be supported per Basic Rate Interface. Service includes one data telephone number.

SPECIAL DIAL TONE ARRANGEMENTS

B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)
(continued)

4. Intraswitch Packet Switched Data "D" Channel Service (continued)

- a. Flow Control Parameter Negotiation - An arrangement that permits negotiation on per call basis of the flow control parameters. This feature automatically negotiates the maximum packet size and window size for each direction of data transmission. This can be presubscribed (fixed) or it can be established on a per call basis.
- b. Throughput Class Negotiation - An arrangement that allows the calling data terminal to request specific throughput classes (bits/second) in the call request packet for both directions of data transmission.
- c. Logical Channels - An arrangement that is a virtual circuit, offering multiple logical connections at the packet level of X.25. ISDN packet data service offers the ability to send and/or receive packet data calls on separate logical channels within one ISDN "D" channel. The logical channels can be assigned as permanent virtual circuits, incoming only, outgoing only or two-way (incoming and outgoing).
- d. Incoming Calls Barred - An arrangement that prohibits a data terminal from terminating an incoming call.
- e. Outgoing Calls Barred - An arrangement that prohibits a data terminal from originating outgoing calls.
- f. Closed User Groups - An arrangement that allows ISDN users to establish sub-networks of ISDN packet switching data users from which members can communicate with each other. The Closed User Group is established on a per line basis. The first member of a Closed User Group is included. Additional members are charged at the rate established in the rate schedule. Each data terminal in a Closed User Group can be arranged in one of the following modes:
 - (1) Closed User Group with Outgoing Access - The data terminal makes outgoing calls only.
 - (2) Closed User Group with Incoming Access - The data terminal receives incoming calls only.

SPECIAL DIAL TONE ARRANGEMENTS

B. Integrated Services Digital Network (ISDN) Service - Basic Rate Interface (BRI)
(continued)

4. Intraswitch Packet Switched Data "D" Channel Service (continued)

f. Closed User Groups (continued)

(3) Incoming Calls Barred Within a Closed User Group - The data terminal makes outgoing calls only to the data terminal in the Closed User Group with which it is associated.

(4) Outgoing Calls Barred Within a Closed User Group - The data terminal receives incoming calls only to the data terminals in the Closed User Group with which it is associated.

(5) Unrestricted Access - The data terminal receives and makes both incoming and outgoing calls.

g. Fast Select - An arrangement that allows a sending data terminal to forward up to 128 bytes of data along with the call setup and clearing packets.

h. Fast Select Acceptance - An arrangement that allows the switch to transmit incoming call packets with the Fast Select facility to a destination terminal that has this feature.

5. Transmission Specifications

The Standard Transmission parameters for an ISDN Service line utilizing an ISDN Basic Rate Interface (BRI) consists of: A maximum of 38.5db loop loss at a 40Kz test tone terminate into a 135 ohm impedance. The 38.5db loss includes all central office facilities, outside plant facilities and inside wiring.

6. Customer Premise Equipment and Facilities

The customer is responsible for providing compatible premises equipment in order to utilize the ISDN offering. All customer-provided equipment used to interface with ISDN Service is required to conform with the Technical Reference Specification as used by the Company and is found in the following Technical References:

<u>Subject</u>	<u>Technical Reference</u>	<u>Voice Contact Available</u>
Basic Rate Interface	AT&T 235-900-341	1-800-432-6600
Customer Premises Planning Guide	AT&T 533-700-100	1-800-432-6600

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ISDN Service render any facilities provided by the customer obsolete or require modification or alternation of such equipment or system, or otherwise affect its use or performance.

7. Special Construction

An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment; if the installation is for temporary or semi-permanent purpose or if for any other reason the construction costs are excessive, the applicant shall be required to pay the costs over and above those applicable for a normal installation. Each special construction situation will be evaluated on an individual case basis.

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service

1. Application of Tariff

This tariff contains rules, regulations and rates applicable to radiotelephone service furnished by the Williston Telephone Company, Inc. d/b/a TDS Telecom, within the Service Areas herein defined in the State of South Carolina.

2. Regulations

a. Definition

Radiotelephone service is a communication service providing mobile and fixed radiotelephones through a land radiotelephone base station. Communication service includes service between a wire telephone and a mobile or fixed station radiotelephone, between two mobile or fixed station radiotelephone, dispatching service and signaling service.

b. Availability of Service

Radiotelephone service is available to mobile and fixed stations equipped for this service when within range and on the same channel of land radiotelephone base station through which such service is furnished and subject to transmission limitations due to radio propagation conditions.

c. Provision of Equipment

(1) The radiotelephone equipment at the mobile station may be provided either by the telephone company or by the customer, as desired. If provided by the customer, the equipment shall be suitable for the proper operation of the service.

(2) All installation work of equipment (equipment includes associated items necessary to the furnishing of service) furnished by the telephone company on the customer's premises and at the mobile station is done by the telephone company. Equipment furnished by the telephone company on the customer's premises and at the mobile station is the property of the telephone company, whose agents and employees have the right to enter the premises and the mobile station at any reasonable hour for the purpose of installing, inspecting or repairing, or upon termination of the service, the removing of the equipment.

Section 7
Original Sheet 21

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

c. Provision of Equipment (continued)

- (3) Where the customer provides the equipment the above regulation (2) does not apply with the respect of the mobile stations.

d. Undertaking of the Telephone Company

- (1) The telephone company's obligation to furnish radiotelephone service is dependent upon its ability to secure and retain suitable facilities and rights for the construction, operation and maintenance of the necessary equipment.
- (2) The telephone company does not undertake to transmit messages, but offers the use of its facilities to its customers.
- (3) In connection with signaling service, the telephone company undertakes only to transmit a signal for the purpose of actuating a signal at the mobile station and accepts no responsibility for the transmission of further intelligence.

f. Obligation of Customer

- (1) The calling party (or customer) shall establish his identity in the course of any communication as often as may be necessary.
- (2) The calling party (or customer) shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called station.
- (3) The customer's use of the radio transmitter on the mobile or fixed station shall at all times be subject to the control of the telephone company.
- (4) The customer is required to furnish, install and maintain the storage battery and charging equipment on the mobile station required for the proper operation of the service.

Section 7
Original Sheet 22

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

f. Obligation of Customer (continued)

- (5) The customer is required to provide and maintain by ownership or rental, adequate power supply at fixed stations for proper operation of the equipment.
- (6) The customer is required to exercise all reasonable precaution to protect the equipment against theft and damages and upon termination, return in good condition all the equipment furnished by the telephone company, reasonable wear and tear excepted.
- (7) The customer is required to make available, for periodic inspection and tests, the mobile station equipment furnished by the telephone company at a time and location mutually agreed upon by the customer and the telephone company.
- (8) The customer must have periodic measurements performed as required by the Federal Communications Commission when the radiotelephone equipment is owned by the customer.

g. Limited Conversation

The telephone company reserves the right to limit the length of local conversations.

h. Liability of Telephone Company

- (1) In view of the possibility of errors and difficulties occurring in the transmission of messages over the facilities furnished by the telephone company and of the other uses for which facilities may be furnished by the telephone company, and because of the inviolableness of such errors and difficulties, the service and facilities furnished by the telephone company are subject to the terms, conditions and limitations herein specified. In the event of an interruption to the service, which is not due to the negligence or willful act of the customer, there will be allowed a prorate adjustment of the monthly guarantee and of any fixed monthly charges involved, for the service and facilities rendered useless and inoperative by reason of the interruption, during the time said interruption continues in excess of twenty-four hours from the time it is reported to the telephone company or detected by the company. For the purpose of administering this regulation, every month is considered to have thirty days.

GENERAL EXCHANGE TARIFF

d/b/a TDS TELECOM
South Carolina

Section 7
Original Sheet 23

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

h. Liability of Telephone Company (continued)

(2) The liability of the telephone company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing service or facilities and not caused by the negligence of the customer, or of the telephone company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omissions, interruption, delay or error or defect in transmission occurs.

(3) The telephone company is not liable for damages for any accident or injury occasioned by the mobile station or by supplementary apparatus provided in connection therewith when such accident or injury is not due to the negligence of the telephone company.

(4) When the lines of other telephone companies are used in establishing connection to points not reached by the telephone company's lines, the latter company is not liable for any act or omission of the other company or companies.

i. Payment of Service

The customer is responsible for payment of all charges for facilities and service furnished, including charges for service originated or charges accepted at such facilities.

j. Advance Payments

(1) Applicants for service who have no account with the telephone company or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time the application is signed, equal to the installation charges and one months charges for the services provided.

GENERAL EXCHANGE TARIFF

Section 7
Original Sheet 24

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

j. Advance Payments (continued)

(2) The amount of the advance payment is credited to the customer's account on the first bill rendered under the contract.

k. Deposits

The telephone company may, in order to safeguard its interest, require an applicant or a customer to make a suitable deposit to be held by the telephone company as a guarantee of the payment of charges. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the telephone company's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the contract is terminated, the amount of the deposit is credited to the customer's account and any credit balance will be refunded. At the option of the telephone company, such a deposit may be refunded or credited to the customer at any time prior to termination of the contract. In case of a cash deposit, simple interest at the legal rate is paid for the period during which the deposit is held by the telephone company, provided the period is thirty days or more.

l. Initial Contract Period and Termination of Service by Customer

(1) Contract Periods - The initial contract period for service and facilities is one year.

(2) Termination by customer - Service or facilities may be terminated by the customer at any time, subject to payment of full charges for the period service is rendered, except that, if termination occurs within the initial contract period, charges apply for the full initial contract period.

m. Use of Service and Facilities

The service is intended only for communications in which the customer has a direct interest and shall not be used for any purpose for which a payment or other compensation shall be received by him from any other person, firm, or corporation for such use, or in the collection, transmission or delivery of any communication for others.

South Carolina

Section 7
Original Sheet 25

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

n. Service Agreements

An application for service becomes a contract upon the establishment of service. Neither the contract nor any rights acquired thereunder may be assigned or in any manner transferred. Requests for additional service, upon the establishment thereof, become a part of the original contract, except that each item of additional service is furnished subject to payment of charges for the period specified under paragraph l. above.

o. Directory and Omissions

The telephone company's liability arising from errors in or omissions of directory listings shall be limited to and satisfied by a refund or credit not exceeding the amount of the guarantee and fixed charges for the service during the period covered by the directory in which the error or omission occurs.

p. Denial and Restoral of Service

(1) In the event of abandonment of the equipment provided by the telephone company, the non-payment of any sum due, the use of foul or profane expressions, the impersonation of another with fraudulent intent, or of any other violation of the lawful regulations of the telephone company, of the Communications Act of 1934, as amended, or of the rules and regulations of the Federal Communications Commissions and state regulatory bodies of the telephone company may either temporarily deny service or terminate the contract.

(2) When the service of a customer has been temporarily denied in accordance with the preceding paragraph, but the contract has not been terminated or the order to remove the service has not been issued and completed, such service will be restored upon the payment of all charges due, plus a restoral charge specified in this tariff.

(3) Upon the use of the service for the purpose of performing any service in competition with the service which the telephone company may now or hereafter furnish, the telephone company may, by notice in writing to the customer without incurring any liability, forthwith discontinue the furnishing of said service and terminate the contract.

Section 7
Original Sheet 26

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

q. Foreign Attachments or Connections

The equipment or wiring of the telephone company at the mobile station or customer's premises shall not be attached to or used in connection with equipment, lines or wiring, excluding power outlets, which are owned, furnished or installed by others than the telephone company, unless specifically authorized in this tariff. In case any instrument apparatus or device or any kind, other than that furnished by the telephone company or expressly authorized in this tariff, is attached to or used in connection with any part of the telephone company's property, the telephone company has the right to remove such instruments, apparatus, or devices or to deny service so long as such instruments, apparatus or devices are so attached or connected, or to terminate the service.

r. Defacement of Premises or Property

The telephone company is not liable for any defacement or damage to the mobile vehicle or customer's premises resulting from the existence of the telephone company's instruments, apparatus and associated wiring thereon, or from the installation or removal thereof, when such defacement or damage is not the result of the negligence of the Telephone Company.

s. Maintenance and Repair

All ordinary expense for maintenance and repair of equipment provided by the telephone company is borne by the telephone company. The customer will be responsible for damages to or loss of apparatus or wiring installed by the telephone company at mobile station when caused by his negligence, but not the normal wear and tear or for causes beyond his control. The customer may not rearrange, disconnect, remove or attempt to repair any equipment or wiring owned and installed by the Telephone Company or permit others to do so.

2. Regulations (continued)

t. Special Equipment and Arrangements

- (1) For special equipment and arrangements furnished in excess of radio unit and accessory kit, charges equivalent to the estimated cost of furnishing such equipment and arrangements apply.
- (2) Estimated cost consist of an estimate of the following items to the extent that they are applicable:
 - (a) Cost of Maintenance
 - (b) Cost of operation
 - (c) Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
 - (d) Administration, taxes and uncollectible revenue on the basis of reasonable average charges for these items.
 - (e) Any other specific items of expense associated with the particular situation.
 - (f) A reasonable amount, computed on the estimated cost installed of any facilities provided, for return and contingencies.
- (3) Estimated cost installed as mentioned in c. and f. above includes cost of equipment and materials specifically provided or used, plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and any other items which are chargeable to the capital accounts.

Original Sheet 28

SPECIAL DIAL TONE ARRANGEMENTS

D. Mobile Telephone Service (continued)

2. Regulations (continued)

u. Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will be discontinued if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service is being used in violation of law. The Telephone Company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of law.

v. Voice Silencers

Devices provided by a customer to obtain quietness or privacy may be used in conjunction with the telephone instrument furnished to the customer by the Telephone Company provided they do not involve direct electrical connection to the equipment, interfere with its proper functioning or damage it.

w. Miscellaneous Devices Provided by the Customer

(1) The provisions of this tariff shall not be construed or applied to bar a customer from using devices, which serve his convenience in the use of the facilities of the Telephone Company in the service for which they are furnished under this tariff, provided any such device so used would not endanger the safety of the Telephone Company employees or the public, damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Telephone Company; or interfere with the proper functioning of such equipment or facilities or impair the operation of the telephone system or otherwise injure the public in its use of the Telephone Company's services.

(2) Except as otherwise provided in this tariff, nothing herein shall be construed to permit the use of a recording device or of a device to interconnect any line or channel of the Telephone Company with any other communication line or channel of the company or any other person.

EXCEPTIONS

A. Custom Calling Services

1. Service Descriptions

a. Long Distance Call Waiting

This service is additive to Call Waiting and uses a special tone signal to indicate to the customer that the incoming call is long distance. The tone is different than the Call Waiting tone signal received for a local call. The long distance caller will receive the usual ringing tone.

b. Personal Ringing

This service allows the customer to have up to four distinct telephone numbers on a single line. The second, third and fourth number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all four telephone numbers can be forwarded.

c. Toll Restriction with PIN Override

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without a PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

MISCELLANEOUS SERVICE ARRANGEMENTS

CONCURRENCE

Williston Telephone Company, Inc. d/b/a TDS Telecom hereby assents to, adopts and concurs in the Miscellaneous Service Arrangements as set forth in Section 10 of the McClellanville Telephone Company, Inc. d/b/a TDS Telecom tariff, on file with the South Carolina Public Service Commission and makes itself a party thereto and obligates itself to observe the provisions therein with the exceptions listed below:

EXCEPTIONS

A. Direct Inward Dialing (DID) Service

	Monthly Rate	NRC
DID Number Assignment Charge (per number)	\$5.00	\$50.00 (2)

B. Relocation Forwarding Service

1. General

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customers premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

2. Conditions and Limitations

- a. RFS service is offered subject to availability of suitable facilities.
- b. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.
- c. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.
- d. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.

D. Emergency Reporting Services

1. General

This tariff is applicable to Emergency Number Service - 911 furnished or made available by the Williston Telephone Company, Inc. hereinafter referred to as the Company.

2. Concurrence

This Company concurs in the rates and regulations governing Emergency Reporting Services, Section A24.1.1 D and E, as filed by the Southern Bell Telephone and Telegraph Company (South Carolina) with the Public Service Commission of South Carolina. Any amendments thereto or successive issues thereof are hereby adopted and made part of this Tariff, with the provision that the Company reserves the right to cancel this concurrence after compliance with the requirements as to tariff filings as may be necessary upon such cancellation.
